

August 28th, 1923.
Circular Letter No. 22

To Supervisors of Schools.

Ladies and Gentlemen:

INFORMATION FOR HIGH SCHOOL STUDENTS INTENDING
TO ENTER THE UNIVERSITY OF PORTO RICO AND COLLEGE OF
AGRICULTURE.

The attention of students desiring to enter the University of Porto Rico or the College of Agriculture should be called to the regulations governing the entrance to the various courses.

In addition to the High School diploma the following is required: For entrance to the College of Pharmacy, students must have completed the course in biology, physics and chemistry. For entrance to the Home Economics course in the Normal College the following sciences are required: biology and chemistry. For entrance to the College of Agriculture a student should elect all the mathematics offered by the school and also all of the science offered.

In order to avoid trouble later all high school students should be informed of the above.

Yours very truly,

(Signed) JUAN B. HUYKE

Commissioner of Education.
